

Bremer Sanctuary Spring & Summer Bird Hikes

April 18th & June 6th, 7:00am

Our Spring Hike will focus on resident birds along with the early arrival of several species of migratory birds. Red-headed Woodpeckers, Blue Jays, Tufted Titmouse, Northern Cardinals and Eastern Bluebirds will be present. Nest box checks will be explained and demonstrated.

Our Summer Hike will focus on the migrating species: warblers, vireos, tanagers, sparrows along with all the resident birds. Good chances for viewing of Indigo Bunting, Eastern Towhee, Summer Tanager and Common Yellowthroat are possible.

Guided easy level hiking for 60-90 minutes leaves promptly at 7:00am. Dress for the weather...Wear sturdy shoes, hat and apply bug repellent. Bring binoculars and a birding field guide (both available for loan). Light breakfast items, coffee and water will be available after the hike in the Education Barn. Family friendly and open to the public. Donations accepted.
